## ACKNOWLEDGMENT

---

CDIAC collects, compiles, and disseminates information on all public debt issued in California, and wishes to thank those public agencies that make the timely publication of information possible by promptly filing their reports pursuant to Section 8855(k)-(l) of the California Government Code.

Comments are appreciated and may be sent to the California Debt and Investment Advisory Commission, 915 Capitol Mall, Room 400, Sacramento, CA 95814. Comments also may be sent by email to [CDIAC@treasurer.ca.gov](mailto:CDIAC@treasurer.ca.gov), by calling (916) 653-3269, or by fax at (916) 654-7440.

# **INTRODUCTION**

---

## 2007: A YEAR OF UNPRECEDENTED DEBT ISSUANCE ACTIVITY<sup>1</sup>

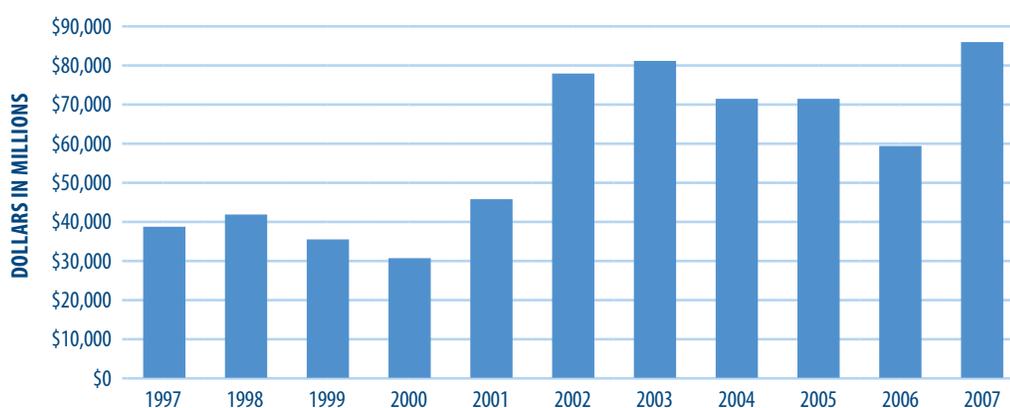

Participants in the municipal finance industry may best remember 2007 for how it ended—the subprime mortgage collapse creating a liquidity crisis that resulted in the downgrading of many of the major monoline bond insurers and the first signs of problems in the auction rate securities market that ultimately lead to its failure and subsequent Securities and Exchange Commission (SEC) investigations into possible abuses. Actual debt issuance activity in 2007, however, tells a different story—unprecedented statewide debt issuance with little foreshadowing of the crisis to come. Indeed, California state and local governments issued nearly \$85 billion in bonds and notes in 2007, the largest total volume of statewide issuance in a single year. This volume of issuance exceeds 2006 levels by 45.3 percent and is double the volume of issuance of ten years ago. As **Figure 1** shows, not since 2003 have California governments come close to issuing as much debt.

Much of the 2007 year-over-year increase in debt issuance can be attributed to higher state debt issuance levels in three areas: interim financing notes, general obligation bonds, and tobacco securitization bonds.<sup>2</sup>

- Interim Financing Notes** In 2007, the state issued approximately \$7.0 billion of revenue anticipation notes (RANs), approximately \$5.5 billion more than was issued in 2006. As do many government agencies, the state annually issues RANs as an interim financing measure to manage uneven cashflows during the budget year.
- General Obligation Bonds** The state issued \$12.2 billion in general obligation bonds in 2007, an increase of 166 percent from the \$4.6 billion that it issued in 2006. The amount of general obligation bond issuance in 2007 alone equals nearly the entire volume of state issuance for 2006. Much of the increase reflects the initial issuance of bonds authorized at the November 2006 general election, in which voters approved an unprecedented \$42.7 billion in general obligation bonds for transportation, affordable housing, schools, water and flood control, and various water and parks projects.
- Tobacco Securitization Bonds** The state issued \$4.4 billion in tobacco securitization bonds in 2007, an increase of nearly \$4 billion from 2006. These asset-backed, tax-exempt bonds allow state and local government agencies to access the \$206 billion nationwide tobacco settlement, which will be paid to states over a 25-year period.

**FIGURE 1**

### CALIFORNIA PUBLIC ISSUANCE TOTAL PAR AMOUNT 1997 THROUGH 2007

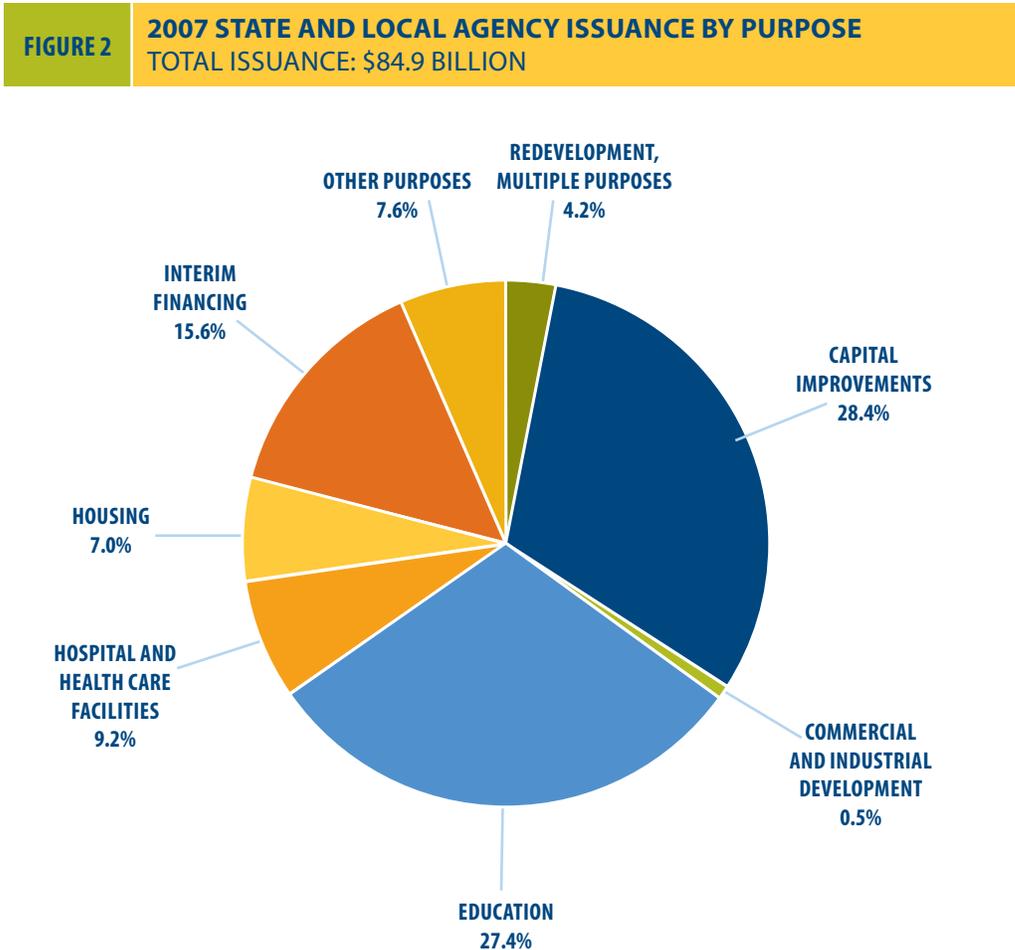

<sup>1</sup> The analysis is based on information contained in two companion CDIAC publications: *The 2007 Calendar of Public Debt Issuance* and the *2007 Summary of California Public Debt*.

<sup>2</sup> Except when discussed in detail by type of instrument, the term “bond” may be used in this report to refer to all types of public debt issued, such as notes and commercial paper.

While the volume of state issuance more than doubled from 2006 to 2007 (from \$12.3 billion to \$30.4 billion), the volume of local agency issuance grew at a more moderate pace. Total issuance for California local agencies (i.e., cities, counties, and special districts) increased by 17.4 percent (from \$45.8 billion in 2006 to \$53.8 billion in 2007). Most of the year-over-year increase is attributable to a greater volume of conduit revenue bond and public enterprise revenue bond issuance (the latter specifically being issued for power generation and transmission).

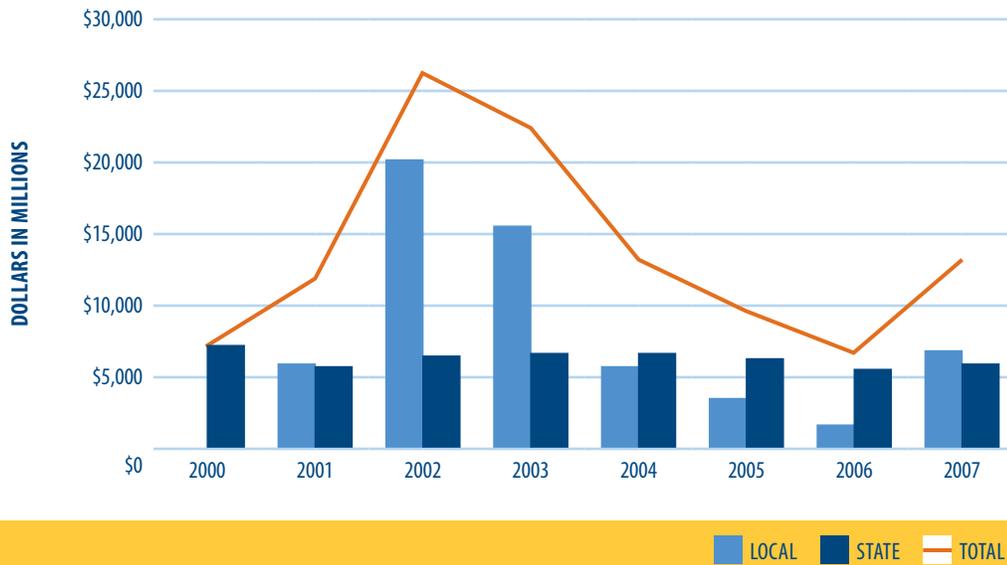

Collectively and individually, the state and local governments primarily issued these bonds for capital improvement projects, education-related facilities, and interim financing. As **Figure 2** shows, capital improvement<sup>3</sup> and education projects accounted for over half of all bonds issued in 2007 (\$24.1 billion and \$23.3 billion, respectively).

While the portion of total issuance dedicated for capital improvement and education-related purposes has remained fairly steady since 2000, issuance for interim financing related purposes has declined for most of the period. **Figure 3** shows that interim financing peaked in 2002 and then declined until 2007. Variations in state interim financing from year to year influence the total trend line. In 2002 and 2003, the state issued both RANs and revenue anticipation warrants (RAWs) to deal with uneven cashflows within and across budget years. While the state did not issue RAWs in the following years, it continued to issue RANs annually (though in declining amounts) until 2007.

<sup>3</sup> Capital improvements include improvements and/or construction for airports, bridges/highways/streets, flood control/storm drainage, equipment, parks/open space, ports and marinas, power generation/transmission, seismic safety, public buildings, public transit, facilities for solid waste recovery, recreation and sports, prisons/jails/corrections, convention centers, parking, wastewater collection/treatment, and water supply/storage/ distribution.

**FIGURE 3** STATE AND LOCAL GOVERNMENT INTERIM FINANCING  
2000 THROUGH 2007

Capital improvement and education-related projects also dominated refunding issuance in 2007. Over 25 percent of total statewide debt issuance was for refunding prior issuances. The refunding activity was not the result of governments trying to convert auction rate securities into variable rate demand bonds or other types of structures as a result of the collapse of that market (which will be reflected in 2008 debt issuance activity data). Rather, it reflects state and local issuers continuing to take advantage of favorable market conditions, refunding bonds primarily for capital improvement and education-related projects. Over 65.0 percent of refunding activity was for these purposes. Relatively speaking, the ratio of refunding activity to total issuance for 2007 was approximately the same as in 2006 (see [Figure 4](#)).

**FIGURE 4** STATE AND LOCAL AGENCY ISSUANCE\*  
TOTAL ISSUANCE AND REFINANCING ISSUANCE 2007 AND 2006  
(DOLLARS IN MILLIONS)

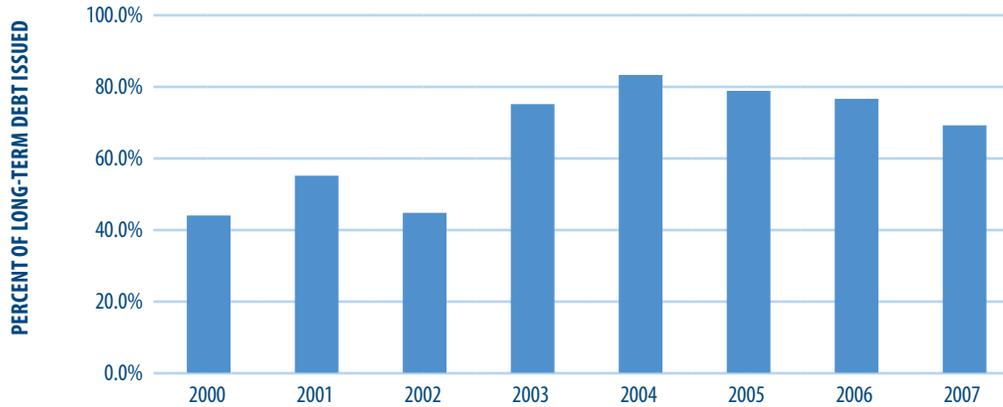

TYPE OF ISSUANCE	2007			2006		
	VOLUME	AMOUNT OF REFINANCING	REFINANCING PERCENT OF TOTAL ISSUANCE	VOLUME	AMOUNT OF REFINANCING	REFINANCING PERCENT OF TOTAL ISSUANCE
STATE ISSUANCE	\$30,443	\$10,615	12.5%	\$12,345	\$4,272	7.3%
LOCAL ISSUANCE	53,772	12,612	14.9	45,794	11,900	20.4
STUDENT LOAN CORPORATIONS	693	0	0.0	290	0	0.0
<b>TOTAL</b>	<b>\$84,908</b>	<b>\$23,227</b>	<b>27.4%</b>	<b>\$58,429</b>	<b>\$16,172</b>	<b>27.7%</b>

\*Totals may not add and percentages may not be exact due to rounding.

A marked drop in the use of bond insurance occurred in the second half of 2007. While 63.6 percent of bonds were insured in the first half of 2007, 51.4 percent were insured in the second half of the year. As a point of comparison, in 2006, 64.2 percent of bonds were insured in the first half of the year while 72.2 percent were insured in the second half. While this data alone is not indicative of any long-term change in the use of bond insurance as a result of the problems that occurred in the latter half of 2007, it is a notable (albeit anecdotal) change from the previous year. A trend does emerge; however, when credit

FIGURE 5

### CREDIT ENHANCED STATE AND LOCAL GOVERNMENT DEBT ISSUANCE 2000 THROUGH 2007

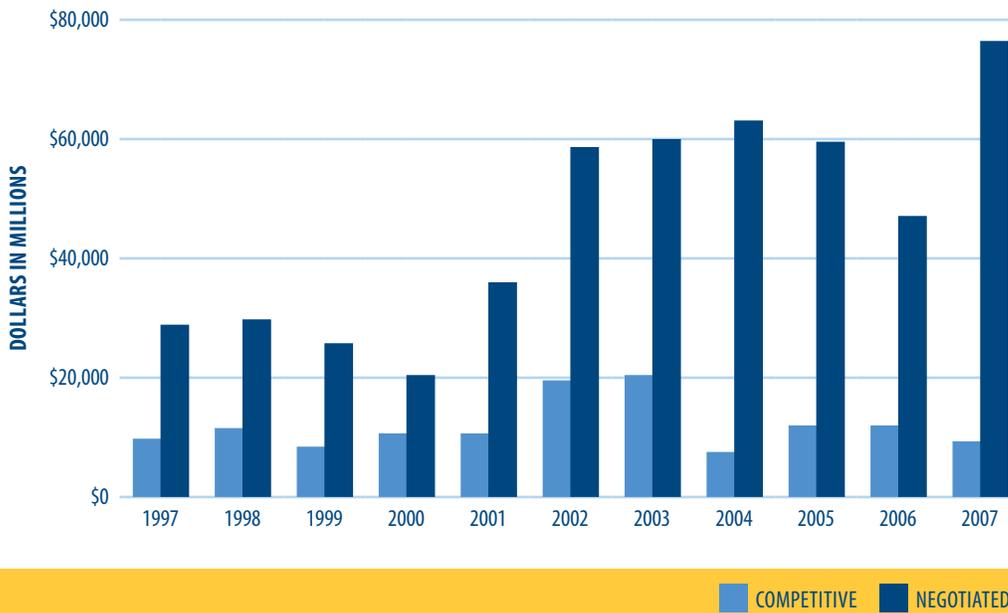

enhancement data from 2007 is compared to previous years. **Figure 5** compares the share of state and local government bonds that were credit enhanced (i.e., bonds issued with insurance, letter of credit or other type of backing) as a percent of long-term debt issued since 2000. The share of bonds that were credit enhanced peaked at 83.6 percent in 2004; however, since that time the percentage has declined annually. In 2007, 67.5 percent of bonds were credit enhanced, the lowest level since 2002.

While the use of credit enhancements may have declined in recent years, the downward trend in issuing bonds via negotiated sale reversed itself in 2007. In terms of total issuance volume, more state and local government bonds were sold via negotiated sales in 2007 than in any previous year (\$75.8 billion) (see **Figure 6**).

FIGURE 6

### CALIFORNIA PUBLIC ISSUANCE COMPETITIVE AND NEGOTIATED FINANCINGS 1997 THROUGH 2007

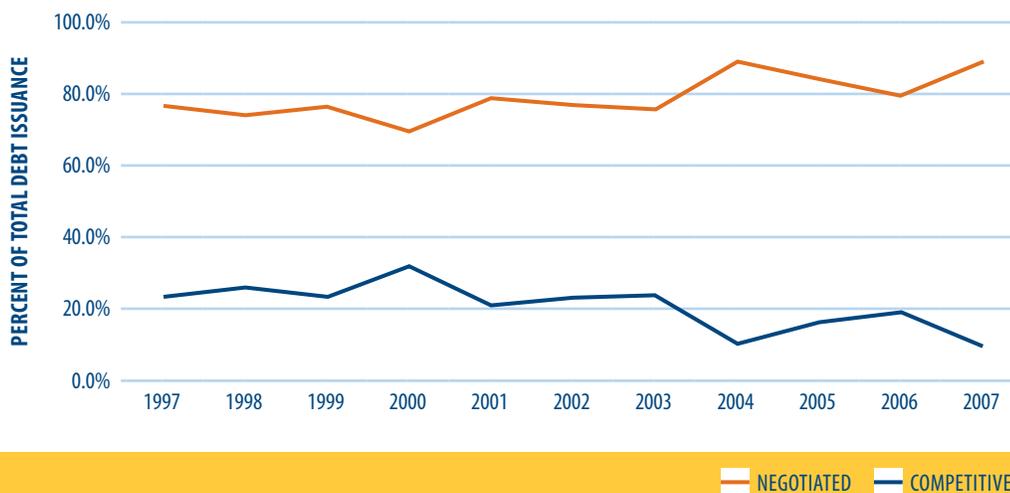

Similarly, while the ratio of negotiated sales to competitive sales reached a peak in 2004 and then declined for two consecutive years, 2007 saw this trend reverse itself. Over 89 percent of total state and local government bond issuances were sold via negotiated sales in 2007 (see [Figure 7](#)).<sup>4</sup>

For additional information regarding 2007 state and local government debt issuance by type, purpose, and region, please see Appendix I. Included in this information is specific data related to Mello-Roos and Marks-Roos bond issuances. CDIAC collects annual information on these types of filings separate from initial issuance information; in particular, details regarding any draws on reserves or defaults for these bonds are provided.<sup>5</sup>

**FIGURE 7**

**SHARE OF TOTAL STATE AND LOCAL DEBT ISSUANCE SOLD THROUGH COMPETITIVE AND NEGOTIATED SALES**

<sup>4</sup> A negotiated financing involves the sale of bonds in which the terms and price are negotiated through an exclusive contract with a previously selected underwriter(s). In a competitive financing, the bidder (underwriter) who offers the lowest sealed bid is awarded the sale of bonds.

<sup>5</sup> As required by California Government Code Section 53359.5, issuers of defaulted (i.e., non-payment of principal and interest on any scheduled payment date) Mello-Roos bonds or Mello-Roos bonds that have a draw on reserve funds to pay principal and interest on bonds must report this information to CDIAC on a yearly basis.

## 2007 SUMMARY OF CALIFORNIA PUBLIC DEBT ISSUANCE

---

This summary provides information on the major components of debt issued by public agencies in California for 2007. The total dollar volume reported for the year amounts to \$84.9 billion. This total includes both long-term and short-term debt, tax-exempt and taxable debt, as well as debt issued for the purpose of refunding existing indebtedness. The value of this report for financing professionals and policymakers, though, lies in its ability to answer questions concerning who issued the debt, how is the debt issued, and for what purpose was it issued.

Debt issuance in California is governed by a number of factors—the economy, public need, and the availability of funds. In 2007, the state’s economy was still in a recovery mode. Both local and state agencies faced tough budgetary challenges and turned to debt to address the pent-up demand for new projects, the need to repair infrastructure, and cover cash shortages.

The tables presented in this report include information on state agencies, local agencies, and student loan corporations. The structure of these tables is a function of the typical request for debt data received by the Commission. To obtain more detailed analyses, readers may contact CDIAC staff or download the debt issuance data from CDIAC’s website at [www.treasurer.ca.gov/cdiac/debtdata/debtdata.asp](http://www.treasurer.ca.gov/cdiac/debtdata/debtdata.asp). In addition, through CDIAC’s Debt Issuance Interface, individuals are able to search the commission’s database to obtain information on California bond issues at [www.treasurer.ca.gov/cdiac/debtdata/database.asp](http://www.treasurer.ca.gov/cdiac/debtdata/database.asp).

The following tables include the dollar volume for all of the taxable and tax-exempt, long-term and short-term, and refunding debt issued, unless otherwise noted. A brief synopsis of each table follows.

### Overview Tables

Debt information by all of the types of agencies is included in the three overview tables. They are:

- **Overview of 2007 Public Debt Financings by Type of Issuer:** This table shows the total dollar volume and number of issues sold by agencies in California that issue debt. It includes both long-term and short-term debt and compares the percentage of each type of agency’s debt to the total amount of debt issued for the year.
- **Summary of 2007 Public Debt Financings by Type of Issuer and Type of Debt Instrument:** This table aggregates agency debt by type of issuer and the type of instrument used to sell the debt. It shows the total volume by dollar amount and number of issues for notes/commercial paper, general obligation bonds, sales/limited tax obligation bonds, various categories of revenue bonds, special assessment bonds, tax allocation bonds, certificates of participation/leases, and other types of debt instruments.
- **Summary of 2007 Public Debt Financings by Type of Issuer and Purpose of Financings:** This table shows the total volume by dollar amount and number of issues for interim financing, education, housing, commercial and industrial development, hospitals health care facilities, capital improvements and public works (the majority of issues in this category were for infrastructure), redevelopment, and other purposes.

The next two tables list individual debt issues that are state or federally taxable and those that have been sold to refund part or all of a prior debt issue.

- **Summary of Taxable 2007 Public Debt Financings:** This table lists each bond issue that has been identified as either federally or state taxable. The issues are sorted according to state agency, local agency (by county), and student loan corporation. The type and purpose of each issue is identified, as well as its tax status and total amount issued.
- **Summary of 2007 Public Debt Financings Which Refund Existing Indebtedness:** This table lists only the state and local agency issues of which some portion of the principal amount is devoted to

the repayment of prior debt. In some cases, the total amount is refunded; in others, the issue also contains new money debt.

## State Summary Tables

The next group of tables summarizes debt issuance for the State of California and its agencies.

- **Overview of 2007 Debt Financings and Refundings by State Issuers:** This table contains the aggregate debt issued by the State of California, its agencies, and departments. It presents the total volume by dollar amount and number of issues sold by state agency, commission, or department; the percentage of the total state issuances; and the total volume (if any) for refunding prior debt.
- **Summary of 2007 State Debt Financings by Type of Debt Instrument:** Information on the various types of debt instruments sold by the State of California and its agencies is contained in this table. This table identifies the number and dollar volume of notes/commercial paper, general obligation bonds, sales/limited tax obligation bonds, various categories of revenue bonds, special assessment bonds, tax allocation bonds, certificates of participation/leases, and other types of debt instruments.
- **Summary of 2007 State Debt Financings by Purpose of the Financing:** The final summary table of state issuance aggregates the total dollar volume and number of issues categorized by the purpose for which the debt was sold. State funding for infrastructure projects is detailed in the capital improvements and public works category.

## Local Agency Summary Tables

The next five tables contain the summaries for local agencies. Each table is organized by county and then jurisdiction within the county. Local agencies whose boundaries span several counties, i.e., state-wide financing authorities, joint unified school districts, etc., are placed at the end of each section under "Multiple County."

The first three tables contain debt information on all issues sold by local agencies. Selected information from the local debt data is excerpted for the last two tables—the *Capital Improvements and Public Works Table* and the *Land-Based Table*.

- **Overview of 2007 Debt Financings and Refundings by Local Issuers:** This table contains the aggregate debt issued by all local agencies. It presents the total volume by dollar amount and number of issues sold by each local agency, the percentage of the total local issuances, and the total volume (if any) for refunding prior debt.
- **Summary of 2007 Local Debt Financings by Type of Debt Instrument:** Information on the various types of debt instruments sold by local agencies is contained in this table. This table identifies the number and dollar volume of notes/commercial paper, general obligation bonds, sales/limited tax obligation bonds, various categories of revenue bonds, special assessment bonds, tax allocation bonds, certificates of participation/leases, and other types of debt instruments.
- **Summary of 2007 Local Debt Financings by Purpose of the Financing:** This table aggregates the total dollar volume and number of issues categorized by the purpose for which the debt was sold. Local agency funding for infrastructure projects is detailed in the capital improvements and public works category.
- **Summary of 2007 Local Debt Financings for Capital Improvements and Public Works:** This table refines the capital improvements and public works category presented in the prior table. Information in this table contains the totals for local agency issuance for airports, ports, and harbors; power generation and transmission; bridges, highways, street construction, and public transit; prisons, jails, and correctional facilities; convention centers, public buildings, and parking; multiple capital improvements and public works; wastewater collection, treatment, and solid waste recovery; water supply storage and flood control and storm drainage; recreation and sports facilities, parks, and open space; and all other capital improvements and public works.

- **Summary of 2007 Public Debt Financings for Land-Based Issues:** This table reflects an ongoing interest in the use of special assessment and Mello-Roos Community Facilities District bonds. These methods of financing have been used extensively in California and have provided two avenues for local agencies to build needed local infrastructure and educational facilities. The data in this table are selected from the local issuance information and show the total dollar amount sold, the amount refunded (if any), and the type and purpose for which the debt was issued.

### Other Summary Tables

- **Summary of 2007 Student Loan Corporation Debt Financings by Type and Purpose:** This table contains the amount issued, any refunded amount, the type of debt, and the purpose of the debt sold by student loan corporations.
- **2007 California Public Debt Issuance by Type and Refunding, Purpose and Refunding, and by County of Origin and Refunding:** These three tables present the grand totals for type, purpose, and county categories. Each table presents the information by state, local, and student loan corporation issuer. These tables aggregate the details contained in the *Summary Tables*. The tables note the number of issues, the amount issued and percentage of the total volume, as well as refunded amount and percentage of the principal amount sold for refundings.
- The *Type* and *Purpose* tables are available on the CDIAC website for the prior years and are updated monthly as CDIAC receives reports of debt issuance for the current year.

### Authority for Collection of Information

The debt issuance information contained in this document was provided to the California Debt and Investment Advisory Commission under the provisions of Section 8855 (k-l) of the California Government Code. Data includes information for issues sold from January 1 through December 31, 2007, and reported to the Commission by March 15, 2007, by state, local and student loan corporation issuers. The data is not audited by the Commission.

Debt information gathered throughout the year is available in several formats. This publication is a companion to:

- **2007 Calendar of California Public Debt Issuance:** This is a compilation of each debt issue reported sold in 2007. It is organized by county and issuer and presents the year's history of each agency's debt issuance. It is a printed record of the detail for the *2007 Summary of California Public Debt Issuance*.
- **2007 Annual Report:** The *Annual Report* provides an overview of California public debt issuance in 2007 and of the Commission's activities and accomplishments in 2007. The data contained in this report may differ somewhat from the *2007 Summary of California Public Debt Issuance*. The data generated for this report reflects more recent changes to CDIAC's debt issuance database.

## REFERENCE NOTES

---

<sup>1</sup> Totals include long-term debt, short-term debt, taxable debt, and debt issued to refund existing indebtedness. Amounts are reported to the California Debt and Investment Advisory Commission under Section 8855(g) of the Government Code. Figures may not add due to rounding. All percentage comparisons in the report are based on the actual figures, not the rounded versions thereof.

<sup>2</sup> The type of issuer was determined through a review of the official statement for the financing, publications made available by the State Controller's office, and/or other sources.

<sup>3</sup> Total debt issuance for 2007 was \$84,907,763,822. This is the figure used to calculate percentages of total debt issuance. Amounts are rounded, and therefore may not add to the total due to rounding.

<sup>4</sup> Includes the Los Angeles Department of Water and Power, airport departments, parking authorities, city and fire protection districts combined financings, TRANS pools, as well as certain assessment and improvement districts.

<sup>5</sup> Includes districts created under the provisions of the Mello-Roos Community Facilities District Act of 1982, as amended.

<sup>6</sup> Refunding amounts are taken from reports filed with the California Debt and Investment Advisory Commission, official statements for issues, and other available bond documents

A photograph of a field of bright yellow California poppies (Eschscholzia californica) in full bloom. The flowers are set against a clear, vibrant blue sky. The perspective is from a low angle, looking up at the flowers, which are in sharp focus in the foreground and slightly blurred in the background, creating a sense of depth. The overall mood is bright, sunny, and natural.
